

# The 5<sup>th</sup> International Bio-logging Science Symposium (BLS5)

**22-26  
Sep 2014**

Palais des Congrès, Strasbourg, France  
email: [bls5@iphc.cnrs.fr](mailto:bls5@iphc.cnrs.fr)  
<http://bls5.sciencesconf.org/>

Bio-logging consists of the attachment of data recorders onto free-ranging animals to collect information on the biology of the animal and the physical parameters of its environment, allowing the effects of the environment on the animal to be studied
